This catalogue is a selection of our products designed for designers, architects, and lighting professionals. It has been conceived as a resource to guide you in your creative journey, offering inspiration and tools to quickly identify options that best suit your visions.

Our experience in balancing form and function is reflected in every product, offering lighting solutions that speak to both contemporary aesthetics and timeless functionality.

The Ideal Lux team is ready
to accompany you on this journey.

Raffaele Strano, CEO

Light offers warmth, shelter, comfort, intimacy. Ideal Lux celebrates it through its products, essential lighting fixtures. The challenge it faces every day is to unite the design of the products and the immateriality of light to create personalized and unique spaces which can tell the story of those who animate them.

Anyone involved in the design of living spaces can find in Ideal Lux the ideal partner to define areas capable of telling the lives of their clients, creating contexts in which everyone becomes the protagonist of their own story. Environments that best represent the personality and taste of those who inhabit them.

Light is a form of pure energy that brings joy and not only allows us to see but also influences our mood and well-being.

Every space, when infused with the right light, takes on a deeper, more authentic, and vital meaning, recounting the different moments of our daily lives.

Attention to people is central, which is why every lighting system is designed to enhance every moment and every place, giving the opportunity to express what is important to each of us.

Nowadays, light is no longer just functional for illuminating a space but elevates it, fully expressing the essence that the designer has sought to impart through geometries and materials.

LIGHT IS ABOUT MOMENTS

Since 1974, Ideal Lux has been passionately dedicated to creating lighting furnishing accessories capable of satisfying every need. The *Selection* collection gathers some of the more than 4000 products offered by the company, designed to embrace a modern and design-oriented taste.

LIGHT TALES

BOTH THE LIGHT
AND THE MOMENTS
CAN BE
FLEETING.
THE LIGHT
THAT DISAPPEARS
BY TURNING OFF
THE SWITCH,
THE MOMENTS
THAT PASS
IN THE BLINK
OF AN EYE.
ALL THIS
MAKES THEM
UNFORGETTABLE.

Attention and dedication to the customer are the very foundation of Ideal Lux. Our Customer Care represents a fundamental pillar within the company, with an emphasis on reliability as our core value. We place the needs of people at the top of our priorities.

For us, quality cannot exist without a warranty. We have extended the coverage to 5 years on all our lighting furnishing accessories, to ensure the highest standards in the products and services offered at all times.

FLY

Family composed by ceiling lamps with circular base, available with four different diameters (350 mm, 450 mm, 600 mm, 900 mm) and also in SLIM version with a more compact height. Powder coated aluminum body with white finish RAL 9016 and black finish RAL 9004, recessed optics (FLY PL) or flush (FLY SLIM) with PMMA microprismatic diffuser with glare control (UGR < 19). The lamp is ready to be integrated with the uplight accessory module for the indirect light part.

The finishes represented are for illustrative purpose only. The tones are subjected to variations due to the material type used and to its manufacturing which can modify the output, as a consequence the items classified under the same finish can present some differences concerning color perception.

Technical icons

Class I Elctrical safety guaranteed by main insulation and additional protective conductor (earthing) connected with metal lamp frame. Earthing is obligatory.

Class II Elctrical safety guaranteed by main insulation and double or reinforced insulation. Earthing not necessary.

Class III Electrical safety guaranted by very low power supply (less than 50 Volt). Earthing excluded.

Mark of conformity to European Community Safety regulations.

Symbols

Items with LED lights: very low consumption, highly bright and focused light, strength and durability.

Integrated switch button.

Lamp with touch switch: switching on and dimmering by touching the base with a finger.

Lampada con rilevazione di presenza inclusa PIR (Passive InfraRed).

High-tech product with high quality materials, intended for professional use.

Luminaire with dimmer.

Lamp with integrated USB socket.

Lamp with rechargeable battery included.

Modular product

NOTES::

-The indicated prices are public prices VAT excluded.
-Ideal lux s.r.l. reserves the right to make, at any time and without notice, all the changes necessary to improve the quality of the items included in this catalogue. For the most updated features, please check the documentation available on our website (www.ideal-lux.com).
-Our products with Class I and II work with nominal Voltage of 220-240 Vac 50/60 Hz. All our products comply with EU legislation.
-Whenever purchased separately as “optional”, the DIMMABLE DRIVER will be already included in the product as replacement for the default on-off driver: only one driver will be supplied.
-The Watt indicated in the catalogue express the NOMINAL power of the lighting fitting including source and driver, when present. The Lumen measures referred to the lighting fittings with integrated LED source are nominal, namely referred to the source. We Kindly invite you to check photometry files for the actual Lumen of the single lighting fittings. For further information and updates.
-The UGR rate is not a characteristic of the fitting itself, but of the installation. The UGR values reported in this catalogue are calculated taking into consideration an ideal installation and are regrouped into blocks <10 <13 <16 <19 <22. It is recommended to calculate the specific UGR according to your installation.
-The useful life of the LED sources of all the products in the catalogue refers, when it is not differently declared, to the L70B50 value.
