Soft light, quiet moments.
The smallest keeper of mood.

Light is the gentlest form of design. It does not only make things visible, it shapes how a space holds you.

With Novelties Summer 2026, we focus on brightness as an attitude. Not as an overload on surfaces, but as warmth, calm, and energy in the right measure. This selection is about variety. A layered range with a clear visual language, grounded in tangible materiality. Pieces that stage scenes that linger, not just illuminate moments that pass.

IT: La luce è la forma più gentile del design. Non si limita a rendere visibili le cose: plasma il modo in cui uno spazio ci accoglie. Con Novelties Summer 2026, consideriamo la luminosità come un atteggiamento. Non come un eccesso sulle superfici, ma come calore, calma ed energia nella giusta misura. Questa selezione parla di varietà. Una collezione stratificata con un linguaggio visivo chiaro, radicato in una materialità tangibile. Pezzi che creano scene che restano, non solo momenti di luce che passano.

ES: La luz es la forma más delicada del diseño. No solo hace visible las cosas, moldea la manera en que un espacio te envuelve. Con Novelties Summer 2026, entendemos la luminosidad como una actitud. No como un exceso sobre las superficies, sino como calidez, calma y energía en la justa medida. Esta selección habla de variedad. Una gama con capas y un lenguaje visual claro, arraigado en una materialidad tangible. Piezas que crean escenas que perduran, no solo momentos de luz que pasan.

FR: La lumière est la forme la plus douce du design. Elle ne se contente pas de rendre les choses visibles : elle façonne la manière dont un espace nous enveloppe. Avec Novelties Summer 2026, nous abordons la luminosité comme une attitude. Non pas comme un excès sur les surfaces, mais comme chaleur, calme et énergie dans la juste mesure. Cette sélection parle de variété. Une gamme en couches avec un langage visuel clair, ancré dans une matérialité tangible. Des pièces qui composent des scènes qui s'attardent, et non de simples instants lumineux qui passent.

IT: La Studio Collection amplia la nostra gamma Interior con una missione chiara: raggiungere nuovi pubblici e sviluppare design progressivi e originali insieme a designer emergenti dalla Germania e da tutta Europa. È una piattaforma per nuove prospettive, dove materia, proporzione e atmosfera si incontrano. Iniziamo con le lampade da tavolo. Portatili o con cavo, compatte o scultoree, ogni pezzo crea zone intime, valorizza le texture e aggiunge calore ai rituali quotidiani. Silhouette essenziali, dettagli precisi, un carattere distintivo. Ogni lampada è autonoma, ma allo stesso tempo parte di una narrazione coerente. La personalità conta. In Studio, la voce e gli standard del designer fanno parte del processo e guidano le decisioni dal concetto alla finitura. Siamo entusiasti di iniziare con i nostri primi designer e continueremo ad ampliare la collezione verso nuove categorie, guidati da chiarezza, versatilità e un approccio alla luce centrato sull'essere umano. Scoprite le prime Studio Table Lamps e create la vostra selezione. **Contattate il vostro Sales Manager Maytoni per trovare i design più adatti al vostro assortimento.**

ES: La Studio Collection amplía nuestra gama Interior con una misión clara: llegar a nuevas audiencias y desarrollar diseños progresivos y originales junto a diseñadores emergentes de Alemania y de toda Europa. Es una plataforma para nuevas perspectivas, donde materialidad, proporción y atmósfera se unen. Comenzamos con las lámparas de mesa. Portátiles o con cable, pequeñas o escultóricas, cada pieza crea zonas íntimas, resalta las texturas y aporta calidez a los rituales cotidianos. Siluetas serenas, detalles precisos y un carácter distintivo. Cada lámpara tiene identidad propia, pero al mismo tiempo forma parte de una narrativa coherente. La personalidad importa. En Studio, la voz y los estándares del diseñador forman parte del proceso, guiando las decisiones desde el concepto hasta el acabado. Estamos entusiasmados de comenzar con nuestros primeros diseñadores y seguiremos ampliando la colección hacia nuevas categorías, guiados por la claridad, la versatilidad y un enfoque de la luz centrado en las personas. FR: La Studio Collection élargit notre gamme Interior avec une mission claire : atteindre de nouveaux publics et développer des créations progressistes et originales avec des designers émergents d'Allemagne et de toute l'Europe. C'est une plateforme dédiée à de nouvelles perspectives, où la matière, les proportions et l'atmosphère se rencontrent. Nous commençons avec les lampes de table. Portables ou filaires, compactes ou sculpturales, chaque pièce crée des espaces intimes, met en valeur les textures et apporte de la chaleur aux rituels du quotidien. Des silhouettes apaisées, des détails précis et un caractère affirmé. Chaque lampe existe par elle-même tout en s'inscrivant dans une narration cohérente. La personnalité compte. Dans Studio, la vision et les exigences du designer font partie intégrante du processus, guidant chaque décision du concept jusqu'à la finition. Nous sommes heureux de débuter avec nos premiers designers et continuerons à développer la collection dans de nouvelles catégories, guidés par la clarté, la polyvalence et une approche de la lumière centrée sur l'humain. **Découvrez les premières Studio Table Lamps et composez votre sélection.**

STUDIO

A CURATED DESIGN COLLECTION BY MAYTONI

Studio Collection
Novelties

The Studio Collection expands our Interior range with a clear mission, to reach new audiences and develop progressive, original designs with emerging designers from Germany and across Europe. It is a platform for new perspectives, where material, proportion and atmosphere come together. We start with Table Lamps. Portable or plugged, petite or sculptural, each piece shapes intimate zones, highlights extures and adds warmth to daily rituals. Calm silhouettes, precise details, a distinct character. Every lamp stands on its own, yet feels part of a coherent narrative. Personality matters. In Studio, the designer's voice and standards are part of the process, informing decisions from concept to finish. We are excited to begin with our first designers, and we will continue to grow the collection across further categories, guided by clarity, versatility and a human-centred approach to light. Explore the first Studio Table Lamps and curate your selection.
