*Тялото е с прекъсвач/With switch

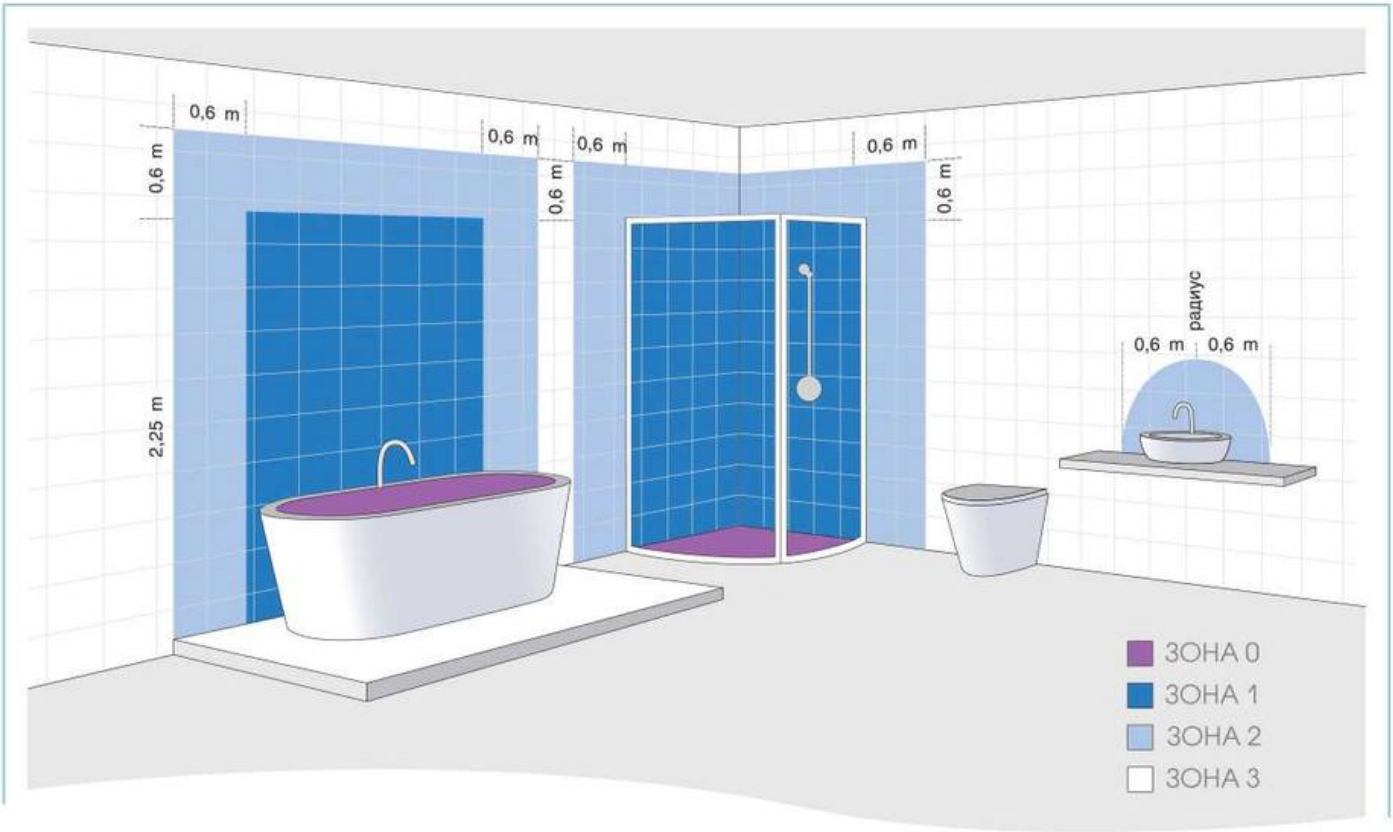

Вашата безопасност е на първо място

При избора на осветителни тела за баня VIVALUX е необходимо да съобразите дали степента на защита (index of protection) IP на тялото е подходящо за зоната, в която планирате да го монтирате. IP е отбелязана върху опаковката на всеки модел. Пространството в банята според изискванията за степен на защита е разделено в четири зони.

Your safety first

When choosing VIVALUX bathroom luminary it is necessary you check if the chosen fixture IP is suitable for the bathroom zone it is to be mounted in. IP is marked on the individual packing of each unit. Bathroom area is divided into 4 zones according to the corresponding IP requirements.

Къде? Кои тела са подходящи?

Зона 0 Това е зоната под душа и във ваната, където телата са потопени. Тела с IP67, които работят при напрежение 12V.

Зона 1 Пространството, което се намира над зона 0 на височина до 2,25m. Електроуредите трябва да са със степен на защита поне IP65 и да са захранени с напрежение 12V, т.е. да бъдат защитени срещу водни пръски.

Зона 2 Разположена е на поне 0,60m около и над зона 1 и в радиус от 0,60m около мивката. Тук могат да се разположат тела с IP44 и с напрежение 220V, каквито са повечето тела за баня VIVALUX.

Зона 3 Останалата част от помещението. Няма специфични изисквания за степен на защита. Можете да изберете осветителните тела с IP20.

Where? Which fixtures are suitable?

Zone 0 This is the zone inside the bath-tube or shower itself. Any fixture used in this zone must be low voltage (max 12 volts) and be rated at least IP67.

Zone 1 That is the area above Zone 0 up to a height of 2.25m. In this zone a minimum rating of IP65 is required i.e. fixtures should be protected against sprays of water.

Zone 2 This is an area stretching 0.6m outside the perimeter of Zone 1 and 0.6m around the sink. In this zone an IP rating of at least IP44 is required. This is the IP of almost all VIVALUX bathroom fixtures.

Zone 3 The rest of the room where no water jet is likely to be used. No IP rating is required in Zone 3 so you could choose a fixture with IP20.

Символ Sign	Описание Interpretation
	Захранване 230V / Power supply 230V
	Захранване 12V / Power supply 12V
	Захранване 12V, променлив или постоянен ток / Power supply 12V, alternating or direct current
	Честота на тока / Mains frequency
	Мощност на светлинния източник / Light source power
	Индекс на защита /IP44 / Index of protection /IP44/
	Цокъл E27 / Lamp base E27
	Цокъл E14 / Lamp base E14
	Цокъл G4 / Lamp base G4
	Цокъл Gx5,3 / Lamp base Gx5,3
	Цокъл GU10 / Lamp base GU10
	Цокъл G9 / Lamp base G9
	Срок на експлоатация / Life time
	Брой цикли на комутация (вкл./изкл.) / Number of on/off cycles
	Индекс на цветопредаване / Color rendering index
	Време за пускане / Starting time
	Димира се / Dimmable
	Не се димира / Non dimmable
	Не съдържа живак / Does not contain mercury
	Ъгъл на светлинния сноп / Beam angle
	Стационарен модел / Fixed model
	Ъгъл на разпръскване на светлината / Beam angle
	Подходящ за употреба на открито и в закрити помещения / Suitable both for indood and outdoor use
	Подходящ за употреба в закрити помещения / Use indoors
	Подходящ за употреба на открито / Might be used outdoors
	Не е подходящ за използване в жилищни помещения / Not suitable for domestic use
	Подходящ за монтаж във всякакви положения / Suitable for mounting in any position
	Подходящ за монтаж в хоризонтално и вертикално положение / Suitable for mounting in horizontal and vertical position
	Подходящ за вграждане в стена или таван / Wall or ceiling recessed
	В комплект с фасунга с кабел / Lamp holder with cable included
	Свързване чрез лустер клема / Terminal blocks and connectors
	Кръгъл монтажен отвор / Circular mounting hole
	Правоъгълен монтажен отвор / Rectangular mounting hole
	Устойчив на UV-лъчи / UV-resistant
	Клас на защита I / Class I
	Клас на защита II / Class II
	Клас на защита III / Class III
	Минимално отстояние от осветявания обект / Minimum distance from lit object
	Подходящ за монтаж върху запалими повърхности / Suitable for mounting on flammable surfaces
	Максимална мощност в/у запалими повърхнини / Max power on flammable surface
