How To Create your Own Suspension

plug and play system with ceramic parts

A modular lighting system crafted for those who seek design freedom with elevated aesthetics. Tailor your own luminous composition - whether suspended vertically or horizontally by using the suspension kit - designed to bring your vision to life. Create your lighting with precision by combining up to three opal glasses in two sizes, paired with your choice of sculptural ceramic parts in six rich matt finishes and three contemporary ceramic designs - oval, diamond-shape and rounded. Each part is crowned with a sleek black metal ring, providing a bold contrast to it's glow. The ceramic components are threaded for seamless, stable assembly, allowing you to position each element exactly as your space demands.
Minimal yet expressive, this modular system is LED compatible (max 32W) - designed not just to illuminate, but to inspire.

Shape the Light. Design the Mood.

Modular elegance for limitless creativity.
